Re: Beyond Audio

To: Whom it may concern;

We are a custom home builder in Kelowna and have done business with Beyond Audio since 1995. For over 17 years we have enjoyed the exception service and the "outside the box" audio visual solutions that Mike Ohman, owner of Beyond Audio has provided. Our clients have been more than satisfied with the products we have obtained through Beyond Audio and there has never been any issues with installation or follow up services.

We would be happy to recommend Beyond Audio to any builders or individuals looking for audio visual services, large or small.

Sincerely,

A handwritten signature in blue ink that reads "Gina Tyerman".

Gina Tyerman,
