**To whom it may concern:**

**We have been collaborating on various projects with Mike Ohman and Beyond Audio for many years. The projects have included theatres, media walls, custom kitchens with audio and television built-ins, and whole home sound systems.**

**Beyond Audio has always given superb service and quality installations to our customers. We have appreciated their knowledgeable staff. Because many of our projects are in existing homes it is important to us that any sub-trades are reliable and trustworthy when working in an environment that people are living in and we have always been able to be assured that Beyond Audio will honor that trust.**

**Beyond Audio has the expertise to do a complete project that fits seamlessly with our custom cabinets and we are happy to recommend them as the best company we know to design, supply and install any electronic media systems you may need.**
