Re: Audio/Video system for our condominium

Dear Sirs:

We wish to thank you and acknowledge your hard work and dedication in the installation of our new home/office theatre/sound system.

You made a very confusing task very simple and your part in the construction of our new home was one piece of the puzzle that we never had to worry about. It was refreshing to have professionals such as you always one step ahead of our needs.

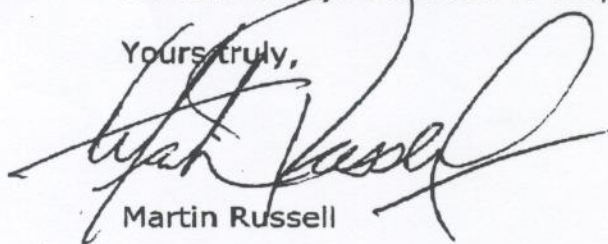

We appreciate the way in which you handled the quotation, selection of equipment, installation and payment.

We are very pleased with the spectacular equipment and how easy it is to use. However, it is not the technological aspects that impressed us the most but rather the people that helped us along the way. Therefore, we wish to say thank you to Mike, Cari, Curtis, Tyler, Deiter, and Steve who performed their tasks in a courteous, friendly and professional manner.

We hope that you will, if not already, reap the benefits of the recommendations that we have made to our friends and colleagues.

You are always welcome to drop by for pop-corn and a movie.

Yours truly,

Martin Russell
