

August 24, 2012

Thanks to Beyond Audio and their expertise, we have an amazing system in our home. When we built our Tommie award winning home in 2009 with Fawdry Homes, who is one of the finest builders in Kelowna, they recommended Beyond Audio for all our audio and visual needs.

The Beyond Audio team was a pleasure to work with and we are fully enjoying our system every day. We recommend Beyond Audio to everyone in need of a new system or looking to upgrade an existing system.

As an Interior Designer I have seen some wiring nightmares by their competition and have had to hire Beyond Audio to do the repairs which is quite costly after the fact. As they say, 'Do It Right the First Time' and you too will be a satisfied customer.
